COSMETICS with

# GREEK YOGURT & ROYAL JELLY<sup>👑</sup>

FACE • BODY • HAIR

**Yogurt** is very rich in lactose and non-hydrolysed proteins. It increases the water content of the top layer of the skin. This helps to smooth and plump out wrinkles. Moisturizes, nourishes and soothes the skin. It is known to be beneficial for hair conditioning and strengthening, without build up. Lactic Acid is a well-known exfoliant, moisturizer and antimicrobial agent. It smoothes wrinkles and improves the firmness of the skin surface. In addition, it protects the integrity of the skin “acid mantle”.

**Royal jelly** is a source of proteins, amino acids, lipids, vitamins, trace minerals as well as unknown trace elements that escape laboratory research and give all these differences to the queen bee. Its use in face and body care products offers anti-wrinkle properties; it tones, hydrates and helps preserve the skin’s elasticity. It is beneficial against inflammation and eczema.
